Siddharth Agrawal

CSE Sophomore at VIT Vellore

Chhattisgarh

Summary

I find something amusing and I immediately want to master it. A rising sophomore at VIT Vellore with major in Computer Science. I am interested in exploring Android Application Development, UX and Graphic Designing and I am open to opportunities for the same.

Proactive and happy to take leadership roles, I never shy away from something daunting and try my best to do any given task meticulously and to the best of my capabilities.

Android App Developer for the Apple Developer's Group and held many Campus Ambassadors roles in the past. Love to explore the areas outside my comfort zone.

Currently expanding my Android horizon and actively looking for relevant internships.
